

# ***Safety Concerns?***

***The 3MA  
With Rod Lock  
Is On Your Side!***

## **Redefining Motion in Cylinder Design**

When precise load holding and emergency-stop situations arise, the 3MAJ (3MA with Rod Lock) is the perfect addition for your safety solution. In addition, our rod locks are IP67 rated, exceed NEMA 4X and classified as EN 954 Category 1 for robust applications. And a manual override function is free!

Call us for the latest innovations in cylinder technology at 866-PARK ACT (727-5228). For more information, please visit us online at [www.parker.com/pneumatics](http://www.parker.com/pneumatics).
